Sixty-fifth session
Agenda item 74 (a)
Oceans and the law of the sea
Australia, Austria, Belgium, Brazil, Canada, Denmark, Finland, Greece, Guatemala, Iceland, India,
Italy, Japan, Lithuania, Madagascar, Malta, Monaco, Netherlands, New Zealand, Norway, Poland,
Portugal, Slovenia, Spain, Sweden, Tuvalu and United Kingdom of Great Britain and Northern
Ireland:

draft resolution
Oceans and the law of the sea

149. Recalls the resolution of the thirtieth Consultative Meeting of Contracting Parties to the
Convention on the Prevention of Marine Pollution by Dumping of Wastes and Other Matter,
1972 (“the London Convention”) and the third Meeting of Contracting Parties to the London
Protocol, held from 27 to 31 October 2008, on the regulation of ocean fertilization, in which the
Contracting Parties agreed, inter alia, that the scope of the London Convention and Protocol
includes ocean fertilization activities and that, given the present state of knowledge, ocean
fertilization activities other than for legitimate scientific research should not be allowed, and that
scientific research proposals should be assessed on a case-by-case basis using an assessment
framework to be developed by the scientific groups under the London Convention and Protocol,
and also agreed that, to this end, such other activities should be considered as contrary to the
aims of the London Convention and Protocol and should not currently qualify for any exemption
from the definition of dumping in article III, paragraph 1 (b), of the London Convention and
article 1, paragraph 4.2, of the London Protocol;

150. Notes the resolution of the thirty-second Consultative Meeting of Contracting Parties to the
London Convention and the fifth Meeting of Contracting Parties to the London Protocol, held
from 11 to 15 October 2010, on the Assessment Framework for Scientific Research Involving
Ocean Fertilization;

151. Recalls decision IX/16 C adopted at the ninth meeting of the Conference of the Parties to
the Convention on Biological Diversity, in which the Conference of the Parties, inter alia,
bearing in mind the ongoing scientific and legal analysis occurring under the auspices of the
London Convention and Protocol requested parties and urged other Governments, in
accordance with the precautionary approach, to ensure that ocean fertilization activities were
not carried out until there was an adequate scientific basis on which to justify such activities,
including an assessment of associated risks, and that a global, transparent and effective control

64 See UNEP/CBD/COP/9/29, annex I.
and regulatory mechanism was in place for those activities, with the exception of small-scale scientific research studies within coastal waters, and stated that such studies should be authorized only if justified by the need to gather specific scientific data, should be subject to a thorough prior assessment of the potential impacts of the research studies on the marine environment, should be strictly controlled and should not be used for generating and selling carbon offsets or for any other commercial purposes, and notes decision X/2965 adopted at the tenth meeting of the Conference of the Parties to the Convention on Biological Diversity, in which the Conference of the Parties requested parties to implement decision IX/16 C;

152. Takes note of the amendment to the London Protocol adopted by the fourth Meeting of Contracting Parties to the London Protocol, held in October 2009, to allow the export of carbon dioxide streams for disposal into sub-seabed geological formations;66

65 Decision on marine and coastal biological diversity adopted on 29 October 2010.
